I am a second-year Computing with Game Development student at Munster Technological University (MTU Kerry) seeking for work. I have knowledge in Python, Java, C#, SQL Developer, Maya, and Unity. I am excited to apply both theoretical knowledge and practical skills to real-world challenges.

Projects

- 1. Maya 3D Models (Flower and Character)** February 2024 – May 2024
Created intricate 3D models of a flower and character using Autodesk Maya. Demonstrated skills in modeling, texturing, rendering, and animating models of different types.
- 2. “Big Adventure” (Unity 3D, Maya)** January 2024 – May 2024
Big Adventure is an action-packed game allowing user to play as a character in third-person view. The player explores areas, collecting items, engaging in battles with enemies. The game concludes when the player successfully explores the final location and discovers the magic flower.
 - Applying C# Unity skills and creating 3D model made in Maya.
 - GitHub: github.com/Yunnna005/Anna_PG2024
- 3. “Dance Studio Booking System” (C#, SQL Developer)** September 2023 – May 2024
The system includes features such as log in, creating account, booking and payment processes, class scheduling.
 - Implementing a booking system by integrating skills in requirements engineering, database concepts, programming and utilizing Waterfall Process Modelling for systematic project development.
 - GitHub: github.com/Yunnna005/DanceStudioBookingSystem
- 4. “Small Software Testing Project” (Java)** March 11- 22 2024
Utilized Java for a software testing project, creating test cases, performing unit testing using Junit.
