I am a third-year Computing with Game Development student at Munster Technological University (MTU Kerry) seeking for work. I have knowledge of Python, Java, C#, SQL Developer, Maya, and Unity. I am excited to apply both theoretical knowledge and practical skills to real-world challenges.

PROJECTS

- 1. Maya 3D Models (Flower and Character)** February – May 2024
Created intricate 3D models of a flower and character using Autodesk Maya. Demonstrated skills in modeling, texturing, rendering, and animating models of different types.
-The Rookies: [Character](#) and [Flower](#)
- 2. “Big Adventure” (Unity 3D, Maya)** January – May 2024
Big Adventure is an action-packed, third-person game where players explore areas, collect items, and battle enemies. The game ends when the player discovers the magic flower in the final location. Developed using C# in Unity and features a 3D model created in Maya.
